Havering LONDON BOROUGH
The Council and its joint venture partner Notting Hill Genesis are progressing with proposals to deliver around 800 new homes along the A1306 New Road corridor. This is part of the regeneration plans for the wider Rainham and Beam Park Housing Zone area which will see the creation of around 3,500 new homes, a new railway station, school, health centre and a linear park along the A1306.

In October 2018, the Council gave authority for the making of a potential Compulsory Purchase Order to be used as a last resort to acquire property which cannot be purchased by agreement. Notting Hill Genesis have recently been in touch with you about progress and the next steps in acquiring properties.

This will provide you with an opportunity to meet representatives from the Council and Notting Hill Genesis, get an update on progress with the housing development plans and ask any questions you may have in relation to the ongoing land acquisition process.
